

PROCLEAN CTR

PROCLEAN CTR is a organic citrus based oil removing agent specially effective with heavy duty stains made of knitting oil, silicone based Lycra spin finishes etc.

CHARACTERISTICS

Composition : Organic citrus acid
Appearance : Transparent
PH : $7,0 \pm 0,5$
Ionic Char. : Nonionic
Solubility : Dissolves in water in any temperature and ratio.

USING CONDITIONS and APPLICATIONS:

- **PROCLEAN CTR** does not create undesired hardness due to usage of solvents products.
- **PROCLEAN CTR** is specially suited for removing Lycra oil from the fabric.
- **PROCLEAN CTR** is suitable to be used in exhaust and impregnation method.

Recommended usage may differ according to the type and intensity of the stain but usually the concentrations given below will be sufficient to reach requested result.

	Continuous (Pad-Batch, Termozol vb.)		Discontinuous (HT, Over-flow vb.)			
			>1:10		< 1:10	
	Usage	pH	Usage	pH	Usage	pH
Silicone Removing	0,4 – 0,8 gr/l	$11 \pm 0,5$	0,5 – 1,0 gr/l	$11,0 \pm 0,5$	1,0 – 4,0 gr/l	$11,5 \pm 0,5$
Bleaching- Scouring	1,0 – 4,0 gr/l	$11,0 \pm 0,5$	1,0 – 4,0 gr/l	$10,0 \pm 0,5$	1,0 – 4,0 gr/l	$10,0 \pm 0,5$
Only oil removing	1,0 – 4,0 gr/l	$10,0 \pm 0,5$	1,0 – 4,0 gr/l	$10,0 \pm 0,5$	1,0 – 4,0 gr/l	$10,0 \pm 0,5$
Temperature	30-180° C		70-120° C		70-120° C	

STORAGE CONDITIONS

Keep out of direct sunlight or freezing. It is stable for at least 6 months if stored in original packing and recommended storage conditions.
